

Koch Family Medicine, S.C.
411 Maxine Dr.
Morton, IL 61550
Ph: 309-263-2411

Dear Koch Family Medicine Patient,

Due to the complexity and variability of managing ongoing medical conditions, it is very important to understand the need for routine follow-ups. Depending on the number and/or severity of your condition(s) it may be necessary to see your physician every three or six months, and for some conditions even monthly. This is to ensure that all of your prescription medications are up to date and properly dosed. Due to possible side effects of some medications, safety lab monitoring is also required regularly. It is our responsibility to ensure that the medications you are taking are properly adjusted as often as is necessary. While we realize this may be an inconvenience for you, it is a policy we hold in order to provide safe and effective ongoing treatment. If a refill request is denied it is most likely because you are overdue for a follow-up and medication review. In order to avoid this, please schedule an appointment before your prescription refills run out. Thank you for your time and understanding.
